

Announcing the "Best of EarthLight" Anthology:
EarthLight: Spiritual Wisdom for an Ecological Age

Dear Friends of EarthLight ~

December, 2006

"Concerning all acts of initiative and creation, there is one elementary truth...that the moment one definitely commits oneself, then Providence moves too. All sorts of things occur to help one, that would never otherwise have occurred."

William Hutchinson Murray
from his book *Scottish Himalayan Expedition*

This quote beautifully captures what happened when we committed to creating the "Best of EarthLight" anthology. The response from authors, poets, artists, donors, and volunteers has been enormously life affirming. "Best of" has come to mean not only the selected content, but also the act of committing our highest selves in service to a compelling project.

EarthLight: Spiritual Wisdom for an Ecological Age is available now. This is your opportunity to revisit, or meet for the first time, writings by the core visionaries for an ecological age. Together they make an impassioned plea for the human species to join the Earth Community. Please see page 2 of this announcement for a detailed description of the anthology.

Thanks to the financial support from so many of you, our past subscribers and friends, the anthology went to press in November and has now arrived. We deeply appreciate the individuals and organizations who responded to our appeal. Your donations provided us with the funds to cover printing costs and support the promotion of the book.

You can now order the anthology for yourself or to give as a beautiful, inspiring gift— just in time for the winter holidays! Gift copies you request to be sent by us will be mailed as soon as we receive your order and will include a gift card in your name. We are also offering a discount for multiple copies sent to the same address. Please see the enclosed order form (on page 3) for details. If you want to purchase copies of the anthology for resale, please contact us at 510.451.4926.

We hope the anthology connects you more deeply to the core of collective consciousness shared by all beings, that continues to survive, dream, and carry on.
